

Josh Woodcock <Front-End Engineer />

832-247-8742 // josh@j0w0.com // github.com/j0w00 // www.j0w0.com // www.linkedin.com/in/jrwoodcock

Front-End Software Engineer experienced in building reliable, manageable, and scalable websites and web applications. I develop quality products by utilizing appropriate technologies and applying best practices for data organization and code optimization.

Skills/Technologies: HTML, CSS, JavaScript, React, Gatsby, Node, Google Firebase, MongoDB, Express, PostgreSQL, MySQL, Cloud-based Deployment Services (AWS, Heroku, Netlify), Styled Components, Bootstrap, jQuery, PHP, Git, Creating/consuming RESTful APIs (Google, Stripe, Twilio), Wordpress, WooCommerce.

Demos: React demos include [Celebrity Name Game](#) and [Event Manager](#). [Tic-Tac-Toe \(Robots vs. Babies\)](#), [Simon](#), and [Rock, Paper, Scissors](#) are developed with vanilla Javascript. Code and more information is available on my GitHub.

Experience

Front-End Software Engineer

Music Audience Exchange (MAX) | January 2021–Present | Austin, Texas (Remote)

- Develops front end of brand and artist livestream web apps that provide fans with the ultimate digital music experience. Features include event registration and voting, real-time chat, tips/donations via Stripe, and livestream video feed.
- Simplified development process for quicker turnaround by creating standardized templates for content and layout.
- Tech stack used includes React, Styled Components, Google Firebase, HTML, CSS, Javascript.

Front-End/UX Developer

Remedy | January 2019–July 2020 | Austin, Texas

- Streamlined urgent care web app that saw an increase in appointments by over 1000% and helped win two stages of VC funding for the start-up. By leveraging open-source web technologies, e-commerce, and custom form flows, the app was easily managed, scaled, and monitored.
- Developed admin utilities to help service coordinators better assist patients during the scheduling process.
- Tech stack used includes PHP, MySQL, Wordpress, HTML, CSS, Javascript, Twilio, WooCommerce.

MIS Web Developer

Ford Audio-Video | January 2017–January 2019 | Austin, Texas

- Architected/developed Wordpress theme and admin plugins allowing for easier management and sharing of content.
- Developed and maintained full-stack web apps in PHP and MySQL for marketing events that included customer/exhibitor registration, check in and attendance, lead tracking, and online payments via Stripe.
- Tech stack used includes PHP, MySQL, Wordpress, HTML, CSS, jQuery, Twilio, Stripe.

Digital Media Marketing Coordinator

Ford Audio-Video | July 2014–January 2017 | Austin, Texas

- Maintained earlier versions of the company's website, event landing pages, and staff Intranet.
