## Experience

### Full-Stack Developer

Hahn · Contract | May 2022–December 2022 | Austin, Texas

- Modernized a legacy Learning Management System by reengineering and developing a new system with React and Wordpress. This project's client required admin functionality for content, custom user group authorization, reliable email notifications, and member progress and achievement tracking.
- Tech stack used includes React, JavaScript, HTML, SCSS/CSS, PHP, MySQL, Wordpress.

### Front-End Software Engineer

Music Audience Exchange (MAX) | January 2021–May 2022 | Austin, Texas

- Developed front end of brand and artist web apps for streaming concerts, including real-time chat and donations.
- Simplified development process for quicker turnaround by creating standardized templates for content and layout.
- Tech stack used includes React, Styled Components, Google Firebase, HTML, CSS, JavaScript.

### Front-End Developer

Remedy Urgent Care | January 2019–July 2020 | Austin, Texas

- Streamlined urgent care web app that helped win two stages of funding for the start-up. By leveraging open-source web technologies, e-commerce, and custom form flows, the app was easily managed, scaled, and monitored.
- Developed admin utilities to help service coordinators better assist patients during the scheduling process.
- Tech stack used includes PHP, MySQL, Wordpress, HTML, CSS, JavaScript, Twilio, WooCommerce.

### Web Developer

Ford Audio-Video | January 2017–January 2019 | Austin, Texas

- Architected/developed custom Wordpress theme and plugins allowing for easier management and sharing of content.
- Developed and maintained full-stack web apps in PHP and MySQL for marketing events that included customer and exhibitor registration, check in and attendance, lead tracking, and online payments via Stripe.
- Tech stack used includes PHP, MySQL, Wordpress, HTML, CSS, jQuery, Twilio, Stripe.

### Digital Media Marketing Coordinator

Ford Audio-Video | July 2014–January 2017 | Austin, Texas

- Maintained earlier versions of the company's website, event landing pages, and staff Intranet. Designed and developed responsive email template for marketing promotions. Promoted to Engineering as Web Developer.
